COMMISSION

To whom it may concern,

This letter is in response to a notice that was placed in our local paper by the Western Mason Water District. It is suggesting a 35.9% increase in some water rates. I would like to know what justifies this huge increase. Most of the customers of this water district are on fixed income, welfare or are working poor. In my opinion this will create a great hardship on these people.

Will we receive 35.9% better service? Will we get 35.9% cleaner water? I don't know what justifies this increase.

Thank you,

Allen Porter
